His father and mother lived in New York in 1832, and his father was one of the victims of the cholera plague which swept the country about that time. Afterward his mother went to live in Connecticut. When about 14 years of age Courcey ran away from home and went to work driving horses on a canal in New York State. After following this business for about six months he returned to his home only to find that meantime his mother had become a convert to Mormonism and followed the prophet Joseph Smith to Nauvoo, Ill.

The lad followed his mother to that place, working his way by slow stages only to find on his arrival there that the Mormon colony had left there and, as near as he could lerrn, had gone to Council Bluffs, Iowa. He followed them to that place and then learned that the Mormons had taken their departure into the that place and then learned that the Mor-mons had taken their departure into the unknown wilderness, as it was then called, and afterward he heard of the founding of Sait Lake. He, however, gave up all hope of ever seeing his matheounding of Sait Lake. He, inever, gave up all hope of ever seeing his mother again, and went to work on a river steam-boat, finally enlisting in the Mexican war and again with the Union forces in the civil war. At the close of the war he West and located in Montana, where

When his attorney heard the story he the Mormon elders in Salt Lake City, and he did so. The communication was inserted in a Salt Lake paper and, during the last week, no less than a score of letters were received from children, grand-children and other relatives of the lost woman. From the tenor of these letters it appears that, on arriving in Salt Lake, Mary Courcey, the mother, married a Mormon and had a large family, many of whom are well-to-do and prominent people in the Tarritory. The mother is still Mormon and had a large family, many of whom are well-to-do and prominent people in the Territory. The mother is still alive, although 94 years of age, and Courcey finds that instead of being alone in the world, as he had supposed, he has scores of relatives in Utah. He will leave in a few days for Salt Lake to meet his mother, after having lost her fifty-two years, and make the acquaintance of a host of relatives through her second marriage.

A Train Robbed Near Maricopa.

Than \$500.

Sheriff Murphy's Posse After a Hot Chase Captures One of the Men.

Engineer Holiday Eats His Lunch Looking into a Muzzle and Messenger Smith Bolts His oor-The Prison

TUCSON(Ariz.,) Oct. 1.-Notwithstand ing the fact that a Territorial law is in force which makes train robbery a capital offense, a gang of desperate characters has revived a line of business, which, it was believed, would never again darken the pages of the criminal history of Arizona, by holding up at 1 o'clock this morning near Maricopa, eighty-six miles west of Tucson, the east-bound overland. The robbers secured less than \$500, scared a number of people so badly that their com-plexions will not be natural in color for several days and paved well the way for their departing this world in the nea future by the rope route. The officers are now hot on the trail of the bandits, an are confident of effecting the capture of the entire gang in a day or two. One of the robbers now lies in jail at Phoenix, suffering intense pain from five wounds in-flicted by Sheriff Murphy of Maricopa

the brakeman discovered three men riding on the "blind baggage," and ordered them to get off. They refused, and before the brakeman knew what was going on, he was looking down the barrels of three big six-shooters. He ceased arguing at once, and extinguished the light in his lantern as directed by one of the men, who, at the same time, discharged his pistel into the air. Engineer A. L. Hollday and Fire-man Smythe, hearing the pistol shot, came to the conclusion that something was wrong and Hollday began slowing up. About this time a voice came from the

dazed, and if Hollday had kept on eating the fellow would without doubt have waited till Hollday had done.

The train proceeded to about a mile east of Maricopa, where it came to a standstill, the robber so ordering. Two men emerged from a clump of mesquite trees by the road and joined the other robbers, who, by this time, seemed to be everywhere at once. Conductor Martin alighted to ascertain the trouble, and immediately two bullets whistled uncom-

it, and when he again joined them they ordered him to knock in the door of the express car, which Messenger George M Mitchell had closed and docked, upon

hearing the noise outside. Smythe struck the door and cried to the messenger not to shoot, as it was the engineer and fireman. Holiday ex-plained as best he could the situation, and the messenger threw open the door. The robbers entered the car and took everything of value in sight. They tried the safe, and, finding it locked, demanded the keys of the messenger. He explained that the big iron box could be opened only at the principal places along the road, and that he could do nothing for them. The robbers took Mitchell's gold watch and then left the car, one of the robbers car-rying the gunny sack, in which the val-uables had been placed. They hurried to the mesquites, where their horses were fastened, and a little later they were dashing across the country. It is believed that they did not get away with more than \$165 in cash and the messenger' watch. The train was backed up to Mar-icopa, and dispatches were sent to this city and Phoenix.

The tracks of the robbers' horses lead toward Mexico, and it is believed the han-dits, knowing their capture meant leath, and that they were certain to be apprehended sooner or later it they remained in the Territory, started for the sister re-public immediately after the robbery. But information received by United Statos Marshal Meade late this afternoon from Marshal Meade late this afternoon from one of the posse in pursuit makes it appear as if the robbers had made for the Salt River Valley. It is to the effect that Sheriff Murphy has brought into Phoenix one of the robbers named Frank Armour. He had five wounds, but none were fatal, the doctors say. They found three \$20-gold pleces and two silver watches on him. These watches were stolen from parties in a street car in Phoenix, a few days ago. Armour claims to have been living at Cline's place, five miles from Phoenix, for the last two months. The three horses the last two months. The three horses stolen by the robbers were taken at the place where Armour was captured, fifteen miles west of Pheenix. DENVER, Oct. 1.-A special to the Times-Sun from Phoenix, Ariz., says that at 12:15 o'clock this morning the eastbound Southern Pacific train was held up by three men, one mile and a haif east of Maricopa. One of the robbers rode out of Maricopa on the blind baggage to a point where the other two flagged the train. The former then climbed upon the eagine, and, at the point of two revolvers, com-pelled Engineer Holliday and Fireman Martin to descend, uncouple the engine and pull out for three-quarters of a mile. One robber entered the express car, while the third stood guard outside. No shots were fired, and the passengers were bound Southern Pacific train was held up shots were fired, and the passengers were not alarmed. The engineer and fireman were forced to walk back to the scene of the rebbery by the robber who accompanied them. Then all three robbers mounted horses and rode away in the di-rection of the Mexican border, fifty miles distant. Sheriffs Garfis of Pinal and Murphy of Maricopa county, with a posse, are in pursuit. The Wells-Fargo messenger says the robbers got only \$160, but it is currently reported that the got \$20,000 in

Fortune Smiles on a Cook County, Ill., Jail Clerk.

ted Press Leased-wire Service CHICAGO, Oct. 1.—Benjamin Price, who has been connected with the Cook county jail as clerk for more than fourteen years is, it is said, between \$3,000,000 and \$5,000, 000 richer today than he was a week ago. This is the amount of property left him by his father, whose death occurred recently. It is scattered all over America England and Australia, and until a solici-tor can give a complete inventory of the property its exact value will not be known. Part of the property is in Mel-bourne, and came from Hiram Price, grandfather to "Ben" Price. The estate owns, it is said, nearly all of the suburb of Hackensack, N. J., known as May-wood. On it is an old colonial mansion owned by the family of Price years ago, and valued at \$50,000.

Ben Price is related to some of the leading men of the country. With the commercial instinct of his ancestors, young commercial instinct of his ancestors, young Price started early in life to carve out a fortune for himself. After a great deal of travel in foreign lands, and a number of more or less successful commercial ventures, he returned to the United States broken down in health, and finally settled permanently in Chicago. He is the bestknown jail officer Chicago has ever had and enjoys a large measure of popularity and enjoys a large measure of popularity.

When seen last night he acknowledged
that he had fallen heir to a large amount
of money, but for particulars referred the
reporter to his attorney. The latter said he was not in possession of the full par-ticulars yet, but understood that the value of the property would exceed \$3,000,000.

He says the reason is that the news agency which received the dis-patches has no correspondent at Seoul, and has been imposed upon.

The Chinese at Ping-Yang suffered defeat, not disaster. The Chinese force, be-ing short of provisions, contemplated a retreat when the city was intested. Their killed and wounded numbered only 3000. Associated Press Lensed-wire Servica.

DELANO, Oct. 1.—A narrow escape from what might have been a terrible accident occurred at Hunt siding, six miles south of this point, at 7 o'clock this morning. Being a trifle late, the north-bound morning train was passing the siding at a speed of about forty miles per hour and an open switch was encountered. The entire train passed, but two Pullmans were thrown off and badly smaahed up. Those in that portion of the train which was left on the track had a terrible shaking-up, receiving scratches and bruises, but no dangerous injuries.

The occupants of the Putimans were less fortunate, though how they escaped more serious injuries is a wonder. All were thrown about the cars, but those receiving the most severe injuries were: R. J. Widney, as Loss Angeles hanker, ticksted.

Caldwell, a Pullman conductor, whose spine is hurt and who is bruised about the body; S. Heinman of Tehachepi, who received a cut on one foot. A colored porter and a contractor from Arizona were also injured, the latter receiving a broken collar-bone and bruises about the head. An examination of the ground shows that the switch had been left open and locked, in all probability by the freightcrew occupying the switch a few hours previous to the wreck. After a delay of an hour, the injured were picked up and the train proceeded.

USED A RUBBER STAMP. Capture of a Swindler Who Has Robbed Many Merchants.

ssociated Press Leased-wire Service. SAN FRANCISCO, Oct. 1. — Unite States Postoffice Inspector J. D. Erwin has captured a man who is believed to be a swindler with a national reputation. He was arrested on the charge of using the United States mails in conducting a scheme to defraud and was booked under the name of Henry Smyth. Evidence habeen accumulated which, it is believed will prove beyond a doubt that this Henr. Smyth is the man who recently, in Chi-cago, personated Joseph Jaeger, a reput-able merchant of Macon, Mo.; Joseph Bawn of Kirkville, in the same State, and

able merchant of Macon, Mo.; Joseph Bawn of Kirkville, in the same State, and Mitchell Bros., of Cadillac, Minn.

In July and August last several prominent Chicago business houses reported to the mercantile agencies and United States postoffice inspectors that they had received orders for goods from Macoa, Mo., signed by Joseph Jaeger, a reputable dealer in stoves, hardware, etc. They scanned the mercantile agency lists and discovered that Jaeger was rated as a first-class business man and consequently they had no besitation in filling the orders and shipping the goods. C. M. Livingston of Chicago was one of the victims, for it subsequently developed that the real Joseph Jaeger had never ordered goods from Livingston, and did not receive those which the latter shipped to Macon.

Upon investigation, it was learned that some clever swindler had signed the order for goods with a rubber stamp, which printed Joseph Jaeger's name in red ink and in large capital letters, while the body of the order was written with a pen and in black ink. The rogue had anticipated the arrival of the waybills, received the goods and disposed of them.

A succession of swindling conducted on the same plan was reported from various cities in different parts of the country. The similarity of methods indicated that the same swindler was operating in each case. For the past month he has been practicing his profession in California.

TRAILED BY BLOODHOUNDS.

Constable Jeffrey's Murderers Run Down-One Captured.

TACOMA (Wash.,) Oct. 1 .- The c TACOMA (Wash.) Oct. 1.—The country about Puyallup is greatly excited over the cold-blooded munder last night of Constable Jeffrey. Two hundred citizens, fully armed, were soon on the track of the two tramps who committed the murder, and this afternoon they were surrounded in the thick woods, near McMillan. Three

bloodhounds, brought over from Bilensburg, were put on the scent early today. About daylight one party of the pursuers came up to the fugitives, who opened fire, both being armed. Deputy Sheriff Harry Moore was abot through the side, and is not expected to live. Every avenue of escape is guarded.

The younger of the two men who shot. Jeffrey at Puyallup, and who was arrested at South Prairie today, was taken to the County Jail this afternoon. He gives his name as Frankfin Murray. He is not over 18 years of age, and looks like a typical vagrant. He says that he had nothing to do with the shooting, and simply ran, after it had happened. He said that the other man's name is Hamilton, and that he had only known him for a few days. When asked why Hamilton did the shooting, he said: "Just because he wanted to do some shooting, I guess. I could not see any other reason."

The condition of Deputy Sheriff Harry Moore is critical. Peritonitis has set in, and he will likely die. The funeral of Jeffrey, the murdered man, will occur at Puyallup tomorrow.

McMurray, the young man in jall, gives the name of the murderer as Hamilton. This man is still at large, but is almost certain to be captured tomorrow. All day today the chase has been carried on under the direction of Sheriff Matthews and J. C. McGrath of Ellensburg. who has two trained bloodhounds with him. The pursuit ied from Meeker to Alderton, thence to McMillan and beyond Orting and South Prairle. Hamilton is a crack shot, and, in view of his desperate character, he is expected to be killed when captured. He has two loaded revolvers.

Young McMurray walked into South Prairle at noon, ordered dinner and had alunch put up. He began talking about the Meeker shooting. The proprietor sized him up, and notified the Constable, who arrested him as he was leaving. Then he admitted his identity, eaving he met Hamilton at Tacoma on Sunday. CHICAGO, Oct. 1.—Judge Jenkins's strike injunction was overruled today by the United States Circuit Court of Appeals, and the case was remanded with directions. and the case was remanded with directions to strike from the restraining order of the court the clause which aroused the country when the order was issued, and which resulted in the Boatner Investigating Committee of Congress. The interveners representing the leading labor organizations of the country, asked that two sections of the injunction be eliminated. The Court of Appeals decided that no court could exign a man or holy.

nated. The Court of Appeals decided that no court could enjoin a man or body of men from quitting individually or in a body the service of an employer. The court said that Judge Jenkins had exceeded his powers when he enjoined the employees of the receivers of the Northern Pacific Company from quitting the service of said company, with or without notice, as as to cripple the property or hinder the vine's hoofs.

One day Russell tried to pass White with his sovrel mare. This led to words, and finally White bet Russell \$50 that the oow could beat the borse on a half-mile trot or a half-mile walk. Russell accepted the bet, and the money was put up. The cow was somewhat confused by the shouts of the crowd and the otherwise striking contrasts with her familiar haunts, but she easily won the half-mile walk in 7m., the house being Im. behind at the wire. The half-mile trot was also won by the cow without an effort in 3:07. White was saving up this cow's wind for the race so as to cripple the property or hinder the proper operation of said road.

He held, however, that the section should stand in which the men were prohibited from combining and conspiring to quit, with a michael which the men were prohibited from combining and conspiring to quit,

stand in which the men were prohibited from combining and conspiring to quit, with or without notice, the sevice of said receivers with the object and intent of crippling the property in their custody or embarrassing the operations of said read. The decision was considered by the lawyers who packed the courtroom as one of the most important opinions delivered in the United States in a decade. It defines the status before the law of labor organizations in their conduct of strikes and affirms the rights of courts of equity to interfere by injunction where there is reason to believe the law would be violated. It holds that the men may withdraw in a body from the service of an employer, using, however, neither force, threats nor intimidation toward employees who do not join them, nor must they use any "device" to molest, hinder or alarm or interfere with others who desire to take their places. Justice Harlan of the Supreme Court delivered the opinion. Sitting with him were Judges Woods, Grosscup and Jenkins.

ERIE (Pa.) Oct. 1.—Alvin Carnahan of Wesleyville was brought from the Edinboro State Normal School to Hamoth hospital last night in a most pittable condition. Carnahan and Winslow Breedy, a fellow-student, both athletes, engaged in catch-as-cafch-can wrestling. Carnahan broke his back trying to throw his adversary over his bead. Technically it was a fracture or displacement near the juncture of the cervical and dorsal vertebrae.

Carnahan fell to the ground paralyzed, and without sensation from the breast bone down. The hospital surgeons are considering trepanning to remove the pressure of the spinal cord as the only possible remedy. Carnahan is conscious, and has no physical suffering.

THE O. R. AND N. SCHEDULE

THE CAISSON EXPLOSION. THE CAISSON EXPLOSION.
CHICAGO, Oct. 1.—The caisson explosion on the Grand boulevard, which was one of the incidents of the railroad strike of last summer, and the subsequent explosion of a caisson at Evanston, during the military maneuvers there in August, will result in the trial by court-martial of Capt. William P. Vose of Light Battery F of the Second Artillery and George S. Grimes of Light Battery A of the same regiment.

The court-martial will meet at Fort-Leavenworth, Kan., on Monday, October S, by order of Gen. Miles. It was found that the shrapnel which blew up was defective and orders had been issued to allow the artillery officers to remove from their ammunition all shrapnel of the kind.

A LAST REPORT.

Director Barwick Presents Some Figures on the Weather.

SACRAMENTO, Oct. 1.—Director Barwick, of the California Weather Service, in his crop bulletin for the week ending October 1, summarizes as follows: The average temperature of the week was for San Francisco, 54; Eureka, 56; Red Bluff, Sacramento and Freano, 60; Los Angeles, 64, and San Diego, 62.

The total rainfall for the week was, for San Francisco, 1.05 inches; Eureka, 1.90; Red Bluff, 1.20; Sacramento, 38; Freano, 38; Francisco, 1.05 inches; Eureka, 1.90; Red Bluff, 1.20; Sacramento, 38; Francisco, 10; and San Diego, nothing. As compared with the normals; a very great exces is shown at all points except San Diego,

cup and Jenkins.

Judge Jenkins appeared inndisturbed by the opinion. The audience listened to the reading of the opinion and was a most distinguished one. Ex-President Harrison and his partner, Mr. Elam, sat side by side, well up toward the bench. After disposing of other cases, the findings of the court were merely announced by Judges Woods and Jenkins, Justice Harlan began the reading of the opinion in the case of P. M. Arthur et al., interveners, against Thomas F. Oakes, Henry C. Payne and Henry C. Rouse, receivers of the Northern Pacific Company, as the celebrated case is known on the docket.

Justice Harlan, before giving the conclusions of the court, reviewed the history of the celebrated injunction. The receivers of the road in December last gave notice of a reduction of wages all along the line when the men threatened to strike. Judge Jenkins issued the injunction on December 19, preventing a strike. Two days later he amended the injunction, making it more stringent. The Brötherhood of Locomotive Engineers joined with the other labor organizations to which the clause enjoining a strike and the labor unions appealed to the higher court. The decision says that the injunction against employees so quitting as to cripple the property or prevent or hinder the operation of the road was equivalent to a command by the court that they should remain under the active employment of the re-.70; and San Diego, nothing. As compared with the normals, a very great excess is shown at all points except San Diego, where a slight deficiency prevails. The average temperatures, as compared with the normals, show heat deficiencies ranging from 12 deg. to 3 deg. at Los Angeles, while Eureka shows an excess of 2 deg.

As the storm of September 29 and 30 was the first of the season, and also is the total for the month of September, a comparison is readily made with the same stations for September, 1893. The first figures will show the total for September, 1893. and the last figures the total for the same month in 1894: San Francisco, 21 of an inch and 1.90 inches; Rad Bluff, 1.18 inches and 1.20 inches; Rad Bluff, 1.18 inches and 1.20 inches; Rad Bluff, 1.18 inches and 1.20 inches; Sacramento, 22 of an inch and .80 of an inch; Fresno, .01 of an inch and .80 of an inch; Fresno, .01 of an inch and .80 of an inch and 1.30 inches; ioos Angeles, a trace and .70 of an inch This excessive amount of rainfall appears to have damaged slightly a few raisin grapes, but more damage will be noted on the table land wine grapes. Crops are about all secure, and preparations are now being made for seeding grain on summer failow. Highest and lowest temperature, 198 deg. at Huron, Fresno county, and 35 deg. at Adin, Modoc county.

This will be the last weekly crop bulletin for the season, and in the closing of which the chief of the United States Weather Bureau, through the director of the Cali-

down any rule applicable to every case that may arise between the employer and employees. If an employee quits without cause and in violation of an express contract to serve for a stated time, then his quitting would not be of right. But the vital question remains whether a court of equity will, under any circumstances, by injunction prevent one individual from quitting the personal service of another.

"An affirmative answer to this question is not, we think, justified by any authority to which our attention has been called orw hich we are aware. It would be an Mercy of Wild Bulls.

Associated Press Leased-wire Service.

ZACATECAS (Mex.,) Oct. 1.—Four persons were killed and many others injured in a bullfight in the town of Mosquitto in the State of Jalisco, yesterday. Two bulls, both wild and very vicious, were turned into the arena. To kill them was the task designed to bring all the fighters into action at once.

A banderillero approached one of the

A banderillero approached one of the bulls, waving a red cloth. He jumped aside and drove the iron into the thick skin of his neck. The banderille had forgotten the second bull, which was upon him before he knew it. The animal caught him on his horns, tossed him over his back and gored him through. As the others ran to rescue him the bull raised his head with the banderillo impaled on his horns and charged his tormentors.

Meantime, the first bull had leaped over the barrier, separating the ring from the spectators, and rushed into the crowd. Many persons were gored and a panic ensued. Men, women and children made a rush for the single entrance. In their efforts to escape, three persons were trainpled to death and many others were injured, some of them fatally.

ity to which our attention has been called orw hich we are aware. It would be an invasion of one's natural liberty to compel him to work for or remain in the personal services of another. One who is placed in such restraint is in a condition of involuntary servitude—a condition which the supreme laws of the land declares shall not exist anywhere within the jurisdiction of the United States."

The decision then went on to discuss whether the fact that the property involved was a railway, with public duties to perform, gave the court the right to restrain men from quitting. The receivers, the de-

THE RIGHTS OF STRIKERS.

Justice Harlan of the United States Supreme Court, sitting in the United States Coupt of Appeals at Chicago, rendered a decision yesterday somewhat modifying the celebrated injune tion order of Judge Jenkins in the Northern Pacific strike case. Judge Jenkins held that the employees of the road had no right to quit work, either singly or en masse, in such manner as to cripple or embarrass the road; and, further, that they had no right to enter into a conspiracy to quit work, with a view to crippling the operation of the road. The labor unions asked for a modification of this order, and upon the refusal of their application by Judge Jenkins they appealed the case to the higher court. Justice Harlan's decision is in re-

sponse to this appeal. He holds that Judge Jenkins should have stricken m his order the words restraining the men from quitting in such to hinder the operation of the road. In other words, that the men had a right to quit at such time and in such manner as would embarrass their employers and inconvenience the public. But Justice Harlan expressly declares that the men had no right to enter into a combination or conspiracy to quit, "with the intention of crippling the property and pre venting the operation of the road."

It will strike most readers that Jus-

tice Harlan, in this matter, makes a distinction without a very material "The men," "may quit in such manner, singly or in concert, as to cripple the road; but they must not conspire to quit with the intent to cripple the How can the fact of conspiracy be determined? Men cannot quit in a body without a previous under-Concert of action must be preceded by some agreement upon a ourse of action. Is not such an agreement properly a conspiracy? If determined to quit at such time and place as will most injure the road, is not the fact of conspiracy so obas scarcely to admit of a doubt? Yet Justice Harlan holds, in effect, that the men may peacefully agree upon concerted action, may quit at such time and in such manner as most to injure their employers, but intention of inflicting an injury.

Who is to determine the question of intention? Where does a peaceful agreement leave off and conspiracy egin? It looks very much as if Jus tice Harlan were splitting hairs in

The learned Justice, while he insists upon the inherent right of men to quit employment when they please in ence of an express contract, declares that they may not resort to violence or intimidation to prevent other men from taking their places-a point upon which all jurists agree and must agree, as a matter of course. Yet this dictum, if rigidly enforced, would quickly end ninety-nine out of hundred strikes; for in ninetynine strikes out of every nunarea, th strikers depend for victory upon the establishment of such a reign of terror as will prevent other men from taking their places.

One point is of importance in Justice Harlan's decision: Men under specific contract can not quit work in violation of such contract. It should need no judicial Daniel to tell us ific contract can not quit work in this, for it is as obviously good law as it is good, common sense. And is not the deduction apparent, that all rail-road employees should be placed under specific contract? Do not the public interests, as well as the interests of railway companies, demand it?

The Missouri campaign may now be considered wide open. Gov. Mc-Kinley opened the Republican end of Kinley opened the Republican end of it at St. Louis yesterday, and Senator Vest performed a similar service for the Democracy at Kansas City. Both gatherings were largely attended, but the greatest enthusiasm was shown at the meeting addressed by Gov. McKinley. The vast crowds which flock to every meeting addressed. by. Gov. McKinley, and the counded enthusiasm with which his sches are received, indicate very sarly the direction in which the liteal tide is moving.

Mr. C. P. Huntington is the sleep less head and the directing mind of the Southern Pacific Company. His fondest hope, at this time, is to compass the defeat of further Congres sional appropriations for the improvement of San Pedro Harbor, the peo ple's site-the free port-the natural and logical location-and to secure for Port Los Angeles all future appropriations that Congress may make in the development of a harbor for the enefit of this city. Port Los Angeles is not the people's site: it is not now a free port, and is not intended to be made a free port; on the contrary, it is planned and designed as an exclusive port of and for a single railway corporation—the Southern Pacific, at the head of which stands Mr. Huntington, the foremost lob-byist of the age. And to this private port it is the aim of Mr. Huntington and his people to force the commerce of Los Angeles, at whatever cost. In their zeal to effectuate this narrow, short-sighted and blighting policy, they stop at nothing. They have refused to accept the declared will of this people on this subject, as expressed by our mercantile community through the formal, deliberate and decisive vote of more than two to one at the Chamher of Commerce election. They have thrice refused to abide by the thrice expressed judgment of the impartial and unimpeachable Board of Engineers of the United States Army in favor of San Pedro and against Santa Monica. They have constantly sought, by persistent lobbying, to nullity the action of Congress in favor of the people's port, and to prevent further ap propriations for its improvement. They have enlisted the services of paid attorneys, paid newspapers, paid lobbyists and paid politicians in the evil work of attempting to defeat the popular choice, to corrupt public sentiment, and to stifle the public will touching this essential enterprise, so vital to the commercial well-being of

well as the incoming sea traffic of half the State-a traffic whose value will, in the early future, if fostered, protected and kept free and untrammeled, be enough to make our people rich; but if hindered and restricted by being drawn into the selfish tentacles of a single reactionary railway corporation, is destined to a future that will be dwarfed, stunted, meager, and "scarce half made up." The restless and dominating disposition of Mr. Huntington and his

They seek to elect and control members of Congress and to nullify the known wishes of our people. It is time for the corporation to

call a halt. It is time for it to put itself in line with the people who give it business life and sustenance. It time for it to abandon a narrow and paralyzing policy, injurious alike to the public weal and to its own best interests, when looked at in the light of the broad future, and not merely in the light of the restricted

Within the past two or three years it has been authoritatively given out from Southern Pacific headquarters that the old and disgraceful practice of prostituting public journals by the familiar process of subsidizing them with coin or other favors prostituting them to betray the people's caus and to serve the railroad's cause in tend-had been finally abandoned by the corporation. The sagacious men in the management at last came to see that such a policy was not only degrading, but futile; that a newspaper, whose editorial utter-ances had to be bought, thereafter ceased to be of any value whatever to the purchasers, but thenceforth became a dead weight upon them and their cause. No conclusion was ever

more sane or sound. Is it possible that this wise conclu-sion has been abandoned or reversed in the case of Los Angeles? There are signs of it recently. There have been, within a few weeks and within a few days past, indications that the hidden hand of the railway company's old newspaper manipulators has re-sumed operations "at the old stand." The familiar sounds are heard again; the familiar utterances; the stereo-typed sophistry; the hide-bound hy-pocrisy; the old hired abuse of every honest public spokesman against the aggressions of the corporation. In-nuendo, sneer and libel have again be-come the editorial stock in trade of the chief journalistic opponents of San Pedro, the chief champion of the Southern Pacific's private harbor, Port

We warn Mr. Huntington, his asso-

They cannot succeed; persistence in the attempt will only end in flagrant exposure and still more intense public disapprobation. It will be the part of wisdom for them to change front and treat the people with equity, candor and honesty. It is the only profitable and sagacious policy—the only policy that will achieve lasting

AT THE PLAYHOUSES.

LOS ANGELES THEATER.—A packed house was in attendance at the Los Angeles Theater last night to welcome the theatrical craze of two continents, "Charley's Aunt." It is an uproariously funny farce, handsomely staged and presented by a company with sufficient capacity to bring out all the cleverness of sented by a company with sufficient capacity to bring out all the cleverness of its situations, which are numerous and droll. The burden of the play is borne upon the rather slight shoulders of Arthur Larkin, who essays the role of the auntie "from Brazil where the nuts come from," and does it with such spirit and naivete as to keep the house shrieking with laughter. The plot is a neat one—that of two college boys who have invited their sweethearts to a luncheon to meet an aunt of one of them, who is expected, but who at the last moment, fails to arrive, announcing that fact to her nephew by a tolegram. In the emergency they prevail upon another college mate, who is opportunely in female garb because of a rehersal for some sort of private theatricals, to take the place of the delayed aunt and thus keep the girls from fiseling from a scene which has no chaperon in it. The girls fall into the trap and make a confidant of the bogus aunt in the frankest and most ingenuous manner. They salute her with kisses and fall into her arms with such frequency and abandon as to drive their lovers frantic. Incidentally the girls' guardian and the father of one of the boys are introduced and, believing the aunt to be the millionheiress, Donna Lucia d'Alvadorex, from Brazil, proceed to pay violent court to her and thus add to the uproariousness of the proceedings. The real aunt finally appears, having in charge a young orphan with whom the masquerading aunt is in love, thus there are a quintette of love stories going on about the central figure and the fun

property boy, on a voyage to the West Indies, to fulfill an engagement (the male members of the company having embarked on a later ship) are wrecked on the Isle of Palms. After a year of waiting, they are rescued by the U.S.S. Cuckoo, and taken on board the ship, which is en voyage home. Commodore Columbus Cook, commander of the Cuckoo, and Col. Mulberry become great friends, as also do the prima donnas, with the other officers, and a good time its had after starting. The commodore and the colonel, after having many, bootles of wine and getting very drunk, retire to their cabins, wherein the wily colonel puts on the commodore's old uniform, throws his good one into the sea and leaves his own shabby habiliments for the dude commander to adorn his figure with The colonel then takes command of the vessel and steers her into Chesapeake Bay, landing at a hotel where he gives a ball to the officers of the Cuckoo and members of his company.

All difficulties are finally cleared up and the curtain goes down, leaving the audience to go away with the memory of some clever acting, more familiar music and many pretty pictures.

William Brewer as Commodore Cook is very satisfactory in a somewhat difficult character, while Thomas Kelly is evidently all that could be expected of Col. Mulberry. Carrie Godfrey and Alice Arundel, the prima donnas, contralto and soprano, have pleasing voices and both seem particularly well-adapted for the parts they fill. The weakset point in the Benson company is the chorus. The female members are not all up to the standard set by Millicent Locke, and anide from indifferent voices many of them are handicapped by a tendency toward mechanical action rather than graceful movement. It may be an injustice to presume that such is the case, but Fannie Liddard as Lulu Lolo, the ambitious debutante, seems to labor under the vain delusion at times that she is the only person on the stage who is attracting the gaze of the audience. Miss Liddard is certainly not so young as she ofnce was, but she still poss

BAND CONCERT.—The concert given at Hazard's Pavilion last night by the Park Band of San Francisco was attended by an audience which should have been larger. The programme was highly entertaining throughout, there being a pleasing variety of soles and other pieces. One of the best of the numbers was a clarionet sole by Sig. Caesar Caspari, who played "Lucrecia Borgia." A programme similar to that produced last evening will be given at the same place this afternbon, and will afford an opportunity for music-lavers which should not be overlooked.

THE IMPERIAL.—At the Imperial Music Hall last night a large crowd gathered to witness the opening of the second week at this already popular playhouse, and a programme of unusual excellence rewarded them for their trouble.

The French comedian, Pizzarello, was among the first to appear, and he was received with much app'ause. Mile. Stella Foliet, in her transfomation dance was unusually clever. The Sparrows, the puncomingists and jugglers, came in for a large part of the applause, and the Braatz brothers, acrobats, furnished some new features, which were remarkable as gymnastic exhibitions. The audiences at the imperial do not tire of hearing Lily Dolgorouky, the violinist, play. The young lady received several persistent encores last evening.

third State campaign which he himself opened within a week.

Hon. Chauncey I. Filley, chairman of the Republican State Committee, ex-Congressman Neidringhaus and a committee of reception met Gov. McKinley at the depot and escorted him to the Planters' Hotel, where he held a public reception. The Governor paid a visit to the Merchants' Exchange, and W. G. Boyd, president of the exchange, introduced him in a feeling speech.

Gov. McKinley said: "Mr. President and gentlemen of the Merchants' Exchange—I consider it a very great honor to be presented to the Merchants' Exchange of the city of St. Louis, composed, as it is, of representative business men of a strong and progressive city. I bring to you the good will of the State of Ohio, assuming whatever differences we may have, you are all for the city of St. Louis (appliause).

good will of the State of Ohio, assuming whatever differences we may have, you are all for the city of St. Louis (applause) and for the State of Missouri."

"What we want in this country, no matter to what political party we may belong, is business prospetily (applause) and whatever will bring that about we mean to have. (Applause.) This country is too great, its resources too mighty, to permit of any one standing permanently in the ways of its progress and prosperity, and whatever stands in the way must get out of the way (applause.) for watever else we may be, Ohioans or Missourians, we all of us are for out own country, first, last and all the time. (Applause.)

"I congratulate the citizens of St. Louis upon their splendid conservatism in business. We have gone through in the last eighteen months a dreadful panic and yet the business men of this city, resting as they did upon conservalive business integrity, survived that panic, and, as I am informed, in your monied institutions you did not have a single faiture. It was a remarkable history to make, and I congratulate you upon it."

Gov. McKinley next was taken to the fair grounds, where Childrens' day was being celebrated. Some five thousand youngsters were on the ground, and they all cheered lustily for "McKinley." Then came a vieit to the Exposition, where, in response to a storm of cheers and demands for a speech, the Governor spoke for a few minutes.

The crowd in Suburban Hall tonight overflowed the large building. Ex-Secretary of the Interior Noble was one of those on the stage. Hon Chauncey I. Filley called the meetings to order, and presented as chairman, Hon. Charles Parsons, who, amid uproarious cheering of the great audience became aimost cyclonic when Gov. McKinley rose, and continued for several minutes. With an expression of amazement on his face, the speaker began:

"Your chairman said this was the opening of the Republican campaign in Missouri; I wonder in my heart what its close will be. The truth is," continued the Governor, "that no hall

NEW YORK, Oct. 1.—John Swinton addressed 200 members of the People's partylast evening. What he said was earnest,
if not at all times complimentary to those
whom he addressed, and the indications
are that the People's party will have him

The boom was set in motion before he had been speaking fifteen min-utes, and become so pronounced that by the time he finished three cheers were given "For our next Mayor." shook his head negatively.

The first thing Mr. Swinton said to the lew York Populists was: "It is not impossible that the next President of the United States may be a Populist." Then he read an extract from a published dispatch from California in which the writer asserted that the chances for the Populiatic ticket were so good this fall that the Democrats and Republicans were combining against it. "My hope is in the wish," he said. "It is possible the election of the next President may be thrown upon Congress, and that the Populists may hold the balance of power. In view of this contingency, it is well for us consider our candidates. Who, I ask, shall be the Populist President in the event that one can be elected?"

candidates. Who, I ask, shall be the Populist President in the event that one can be elected?"

At this question, which was propounded seemingly in seriousness, half a dozen men in the audience shouted "Pfeffer."

"No, "said Swinton, "Pfeffer will not do. He has the misfortune of being regarded as a comic person. That is fatal. If he would shave his preposterous beard he might answer, but not otherwise."

"Hogs of Texas," shouted a voice.

"No, no," said Swinton, "he lent his countenance to burning negroes; he will not do."

"Beslamy," said somebody.

"Bah!" said the orator. "He is not fit to be the mayor of a country village."

Allen of Nebraska and Pence of Colorado were next named by the audience.

"One is too young and the other is a mindster," said Swinton, desparingly.

"Waite and Lewelling," cried a voice in the rear of the room.

"That is better," said the orator, "but you have not hit it yet."

The 200 Populists scratched their heads, and finally a female voice "axclaimed," "Now you have it," said Swinton. "He is the man. He will be a national Parkhurst in the cause of human emanipation. Remember his name and go and work for him. And don't forget that a new era is

dawning, and that the day of human clavery is almost at an end."

perhaps as rousing a reception as any orator ever received in Kansas City. Upon
entering the hall Senator Vest was greeted
with uproarious applause, and when he
arose to speak the cheering became an ovation. He was introduced by John L. Peak
and made what many people regard as one
of the strongest speeches of his life. He
said in part:

"If any one is here with the expectation that I will attack the President of
the United States or any other Democrat,
that expectation will not be realized.
Whatever differences of opinion as to public questions exist between the President
and myself, they shall not interfere so
far as I am concerned with my duty in the
hour of conflict and danger. My contest
is with the enemy, not with the Democrats,
nor give encouragement to our foes.
The Democratic party in 1832 pledged itself to certain reforms. First, the repeal
of the Federal election law, which authorized the use of United States Marshals and
soldiers at the polls; second, the repeal
of the Sherman act; third, the reduction
of tariff taxation to a revenue basis;
fourth, the lessening of governmental expenses.

"Gov. McKinley, in his recent speech at
Bangor, Me., made the statement that not
a single pledge of the Democratic party had
been redeemed. When we reflect that his
speech, carefully prepared and made as a
bid for the Presidency, contains no allusion to his views on the two great issues
of silver coinage and the income tax, it is
not surprising that he should add mendactity to cowardice. The Democratic party
has, in fact, repealed both the Federal
election law and the Sherman act, which
authorized the purchase
of silver by the government, was accompanied by serious and irritating diversity

THE METHODISTS.

Fourth Day of the Annual Conference.

Resolutions Adopted Indorsing the Work of the Childrens'

Reports of Various Committees Pre-sented—A Deserved Compliment to a Retiring Presid-ing Elder.

The fourth day of the Methodist Episcopal Conference of the district of Southern California opened in the First Church yesterday morning at 8 o'clock, with Dr. S. A. Keen in charge of the devotional hour, who read Ephesians iii, 14-21, and gave a running comment on the same.

At 9 a.m. Bishop Fitz Gerald took the chair, when the journal of Saturday's session was read and approved.

The Committee on Publishing Interests reported, and the same was adopted.

Dr. J. P. Hammond addressed the conference on the "Publishing Interests and the California Christian Advocate."

W. L. Miller presented the report on the "American Bible Society," and it was adopted.

L. G. Spring was continued on the same.

L. G. Spring was continued on the supernumerary relator.

The following resolutions on the Children's Home Society were adopted:

"Whereas, the Children's Home Society has become an organization of national extent and reputation as a recognized agency of usefulness and practical philanthrophy; and as it is a well-known fact that by accident, sickness or criminal neglect manychildren are deprived of proper home influence and care, and that, many homes are left desolate by the death of children and others have never been made glad by their presence, and to bring together homeless children and childless homes is a work eminently Christian, charitable, and of sconomy to the State; therefore

"Rescived, that we heartily indorse and commond the California Children's Home Society, and that we advise all our people and especially our min sters to acquaint themselves with the work of the society, and do all in their power to help forward the good work."

was adopted.

Rev. Clark Crawford of the First Church, Pasadens, on behalf of the official board and the society, extended a cordial invitation to hold the next session of the conterence in that city. The invitation was heartily accepted.

J. W. Morris presented the report on the Epworth League, which was adopted.

A. M. Ogden presented the report of the Committe on Temperance, which was adopted.

Committe on Temperance, which was adopted.

E. S. Chase, the retiring presiding elder of San Diego district, was called forward and J. C. Gorran, in a witty speech, presented him with a gold-headed cane in behalf of the ministers of the San Diego district, Rev. Mr. Chase responded.

The bishop took occasion to say a few words to the conference as to some of the necessary qualifications for a successful presiding elder, and white the remarks were of a humorous character the brethren did not fail to recogn'g3 a faithful portrayal of the characteristics of the retiring presiding elder.

The report of the special Committee of the Preachers' Aid Soc'ety was read by the secretary, accepted by the conference and the committee continued.

Resolutions commendatory of the Epworth Guards and Boys' Brigade were adepted.

The temperance anniversary was fixed.

The temperative anniversary was fixed or Tuesday afternoon.

Rev. S. L. Hamilton of the Michigan onference, F. A. Worth of the California terman conference, and J. W. Ell's, State uperintendent of the Children's Home So-

ety, were introduced. Conference adjourned with the benedic-on by Daniel Cobb. MEMORIAL SERVICES.

MEMORIAL SERVICES.

An impressive service was held at 2 p.m.—the memorial services of the ministers and ministers who had died during the conference year.

W. A. Wright had charge of the services. W. S. Matthew led in prayer, after which the memorial of Rev. S. B. Guibersen was read by J. M. Rich, that of Mrs. J. M. Leihy by William Stevenson, of Mrs. F. B. Athleigh by S. G. Blanchard, of Mrs. Silas Sprowles by A. W. Bunkee, of Rev. John Wally, missionary in China, by W. A. Wright.

A number of the members of the conformers paid grateful tributes to the memories of these departed ones.

At the close, A. M. Hough offered the following resolutions:

"First—That the Committee on Public Worship of the next conference be requested to arrange for the memorial service, making it the principal service, making it the principal service of Sabbath afternoon.

"Second—That at the close of the call

making the content of the call second—That at the close of the call second—That at the close of the call second—That at the close of the call

Dr. A. C. Bane offered a word of greeting, and asked all to join in the hymn, "Coronation."

Rev. Mr. Duncan gave the address of welcome, stating that he could only wish that their own Bishop Fitz-Gerald could be here on this glad occasion, making a play upon the name of the two bishops. He said that there seemed to be a prevailing epidemic on this Goast just now. Fitz, and after some further words of welcome, he asked the bishop to write us down as a church, as standing square upon some and most of the great questions of the day. As a church, we stand for someshing in politics. On the question, on fraternity, on the Bpworsh League. On each of these subjects the speaker enlarged in a most happy manner, keeping his audience in the best of humor by his pointed thrusts and keen wit.

Bishop Fitz-Gerald, being introduced, was no less happy in his reply. Referring to the play upon his name, he said that some Fitz are contagious, but he never gave them to any one, but if he could see your Bishop Fitz-Gerald he would see to it that he gave this Brother Duncan fits. Continuing, he said: "I am exceedingly glad to receive this welcome at your hand. I promise myself to be short, but I find that I cannot trust myself here upon this Coast, but think I will do better now that I have gone over to the church, Bouth. I have looked upon this motto: One in Christ and One in Methodism,' and I responded yes! We are one, not organically, it is true, but one in spirit, in doctrine, in purpose and effort to spread scriptural holiness all over the land. My home is in the South, and the ministers and members of the Methodism, and we know which way we are going. We are not like the little boy that, when his mother out his pants straight down the same in roon as behind, so that he said when he tarted out he couldn't tell whether he was going to school or coming home. We know which way we are going, and we are

Prohibitionists 364 days in the year, so good that they think they must take one day off, and that day off is a big day with them. But they are coming to it, and they'll give the other day by and by. We stand for something on the other questions you mention, on the woman question. The women are the most important factors in our church work. We have them as trustees, class leaders and stewards. They can make preachers, but as yet we dare not trust them to help make the laws, but it is couling, however. Then, on the line of fraternity we think of the Methodist Episcopal Church, South, as the nearest to us. We trust that this occasion is a prophecy of what is to be in the near tuture, and on the Epworth League we stand by your side in this. We have had this power, this mighty army of young people all the time. We are just mow learning how to apply it. We have the same Christ, the same spirit; our labors are one. Many the blessing of God rest upon our united labors."

After a solo by Miss Duncan, Dr. Bane stepped forward, and, addressing Bishop Fitz-Gerald and the congregation, said:

"We feel that we have honored ourselves as we have sought to honor you. Can any one who has looked upon this scene doubt but that we are one? This is the first reception of this kind so far as we can learn, but who knows but what it is left for the North and South to unite here in the far West?"

Dr. Henry Cox was called upon, and made a brief response on behalf of the conference. The meeting was then thrown open, and a number of the ministers expressed their pleasure at being present on this occasion.

FATHER LEIHY.

Rev. I. M. Lelhy, who preached his semicentennial sermon on Saturday afternoon, is 85 years of ags. He bears the burden of years with unusual vigor. His sermon was characterized by clearness and depth of thought; a thought acquainted with the scriptures and aptness of illustration. Father Leihy, as he is called, entered the traveling connection fifty-two years ago in a conference that then embraced northern Illinois, Wisconsin, Missouri, Minnesota and Iowa. There are now eleven conferences in that territory. He transferred to California in 1861, and has held his conference connection here since that time. He was presiding elder in the Humbodt district when it covered all of northern California Nevada and Montana. He was among the first preachers who came to Southern California, and is now the oldest and and the oldest traveling preacher in the conference.

JUDGMENT AFFIRMED.

JUDGE VAN DYKE SUSTAINED BY THE SUPREME COURT.

The Appointment of E. C. Hodgman as License Tax Collector by the Supervisors Declared Illegal.

The Supreme Court has affirmed the judgment rendered by Judge Van Dyke in the case of the county of Los Angeles (respondent) vs. Frank E. Lopez et al., (appelfants,) on the authority of the case (appellants,) on the authority of the case of Eldorado vs. Melss (100 Cal., 268,) in which it was held that the Board of Supervisors had no authority to create the office of Licenso Tax Collector, and in which

visors had no authority to create the office of License Tax Collector, and in which the case of the People, etc., va. Ferguson (85 Cal., 288.) was also expressly overruled on this point.

This action, if will be remembered, was instituted by Dist-Atty. Dillon, to enjoin County Auditor Lopez and County Treasurer Fleming from delivering and paying a certain warrant for \$110 to E. C. Hodgman, which had been duly approved and ordered issued to E. C. Hodgman, by the Board of Supervisors; upon the ground that said claim was illegal. The Board of Supervisors and the office of County License Tax Collector, and duly appointed Hodgman to said effice, Auditor Lopez, when the claim, which was for Hodgman's calary for the month of January last, was presented, drew the required warrant, but did not deliver it, at the request of the District Atterney. The case was heard by Judge Van Dyke, and a permanent injunction issued restraining Auditor Lopez from issuing said warrant, and Treasurer Fleming from paying it.

warrant, and Treasurer Fieming from paying it.

From this judgment an appeal was
taken , with the result that the appointment of Hodgman by the Board of Supervisors is held to be illegal.

Judging from the present outlook it sems very probable that, by the time the lection rolls around, the Democratic fill have no ticket to support except the opulistic hybrid which is still in process

incubation.

When the Democratic convention was lid, the Populist nominee for District Attenty, an obscure personage, almost unnown to the bar of this city, was increed, as was also A. R. Street for bounty Surveyor, and the two justices, his did not satisfy the fusionists, or those he were in the field for spoils only and quiet move was inaugurated to have J. At the adjourned meeting of a convention old man Brewer of Companies of the pullist, and he was supreted by nearly all of the better class of og" indoreement plan, and he was suported by nearly all of the better class of bemocrats in the convention. Alexander imself made a fight for just consideration, and J. Marion Brooks immortalized imself by terming Alexander, in true lighth-ward language, "A liar, a scountrel and a dog," all because the gentleasn in question had dropped some very road hints that Brooks, who is known to cosses Populistic propensities, had offered im a money consideration for his withrewal from the ticket, to make from for he man Haines. So bitter was the feeling stirred up over the Treasurer fight hat the "spoils" element saw that it resove more of the candidates from he ticket at that time, and reserved urther action until the County Central committee should meet. That committee as held several meetings, and gradually he names have been dropped from the sgular ticket.

Martin Marsh, nominee for Public Administrator, was retired first, and it is ow understood that J. J. THE SINGLE TAXERS. An Address by Hon. Frank G. Fin-

son on "Wages." A good sized and highly interested audience attended the single-tax meeting at Unity Church last evening, and listened to the Hon. Frank G. Finlayson's address on "Wages." The speaker said that the problem of wages was one of production and distribution. Land and labor are the prime factors in the production of wealth. The latter is distributed as rent, wages and interest. Rent is that part going to the land owner; wages that part to labor, and interest that part going to capital, which has assisted labor. Wages and interest are really the same; interest simply being wages to stored up labor. The amount received by wages, is dependent on what is left by rent. Hence in new countries where land is cheap wages are high. So under the single-tax regime the land or natural opportunities would be open to men at their true value and not that fixed by speculation and menopoly, and wages Unity Church last evening, and listened

men at their true value and not that need by speculation and monopoly, and wages would get more of the total wealth pro-duced.

A single-tax poem composed and de-livered by W. S. Creighton, and entitled "Wanted, the Earth," followed.

A number of question by doubters were answered by the club.

THE TOBOGGAN.

An Immense Crowd in Attendance

There was an immense crowd at the toboggan slide last evening, and the cars were running full up to the hour of closing. The Mexican Band, in the city on ing. The Mexican Band, in the city on their way home from San Diego, was inattendance; and discoursed music during the evening. The band will also be on hand again this evening. The toboggan is one of the most popular amusements ever presented to the people of Los Angeles, and the management is conducting it in a manner that gives general satisfaction.

Y. W. C. A.

Mrs. Josephine L. Phipps spoke to the classes in Spanish at the Y.W.C.A. last night, and explained her methods of teaching the language! The young ladies were much interested, and this class of the Y.W.C.A. promises to be very attractive. Mrs. Phipps's thorough acquaintance with the work will be much appreciated. The classes will meet for work Monday and Thursday evenings at 7 o'clock. It is hoped many more will enroll at once so as to lose no lessons.

After listening to the exposition of Mra. Phipps's methods, one young lady remarked: "I never thought I could learn Spanish, but with this system I am sure that I can."

Miss Addie L. Murphy visited the Y.W. classes in Spanish at the Y.W.C.A. last

Stole a Chinaman's Goods.

A young man entered the store of Lee Kwai Sing, No. 216 South Spring street, Saturday night, and, while he was looking Saturday night, and, while he was looking at some goods, a confederate managed to get sway with two shawls and a table cover, all of which were very valuable. The matter was reported to the police, and Detectives Auble and Hawley succeeded in catching the man who engaged the attention of the storekeeper while the theft was committed. He gave the name of Jack Ryan, and through him the stolen property was recovered.

Wants a Match.

Jack Fraser, a local featherweight, formerly of Boston, is anxious to meet any man in his class on the Coast. His weight is 120 pounds. He has recently returned from an Australian tour, stopping for a time in Honolulu, where he had three fights with men heavier than himself, winning each one. He will remain in Los Angeles this winter and offers to meet any man in his class, barring none.

The Herald matter.

There was nothing new in the Herald matter yesterday. The attachment has not yet been lifted, but it was said that some action would be taken this morning. During the afternoon there was a conference between the members of the new company, but no definite action was taken.

THE SUDDEN DISAPPEARANCE OF TWO YOUNG GIBLS.

Waywardness that May Prove to be Only a Frolio—How the Rain Gauges May Vary—Per-sonal Mention.

PARADENA, Oct. 1.—Saturday evening we Paradana siris, Anna Lang, aged 17, and Maud Burdick, aged 16, went to Los angeles by a Tecminal train. Their dearture was surreptitious, and has caused teartstenes to parents and brothers, who have since been searching in vain for hem. Mrs. Lang, with a son, followed mmediately, hoping to overtake and find he daughter, and the father, Andrew ang, the druggist, also went on a later rain. He engaged the services of some of the best detectives in Los Angeles to earch for his daughter, and with their aid as has looked everywhere that she could be supposed to be in hiding, but returned odds without a clew. Mr. Lang says that he Burdick girl inveigled his daughter way from motives of revenge. He says that his daughter way from motives of revenge. He says that his daughter had been warned many that his daughter had been warned many today without a clew. Mr. Lang says that the Burdick siri invessed his daughter away from motives of revenge. He says that his daughter had been warned many times to have nothing to do with Maud Burdick, and for this the girl had vowed vengeance on the Lang family. It is said that when the girls went away Maud Burdick had a revolver, but neither of them is supposed to have enough money to carry them very far. Mr. Lang is hoping that the girls have only gone to some country house, and will return all right soon, but his aching heart misgives him. His daughter has been reared with great care, she was known as a quiet, modest girl, and the last person in the world to go on such an escapade. A few friends of the family who know of the affair are astounded, and sympathize deeply with the parents.

an indication of the irregularity of downpour during the minstorm Satur-night, it may be cited that the gauge day night, it may be cited that the gauge of T. J. Rigg, on East Colorado street, showed a precipitation of an inch and a quarter, as has been mentioned, and the gauge of Harold S. Channing, volunteer observer, on North Orange Grove avenue, showed .73 of an inch for the same. Still another gauge in a different section of the city showed the amount of rainfall to be .85 of an inch. These showers, which "pour" down for a while are so variable that gauges in different portions of the city may vary greatly in their readings. Mr. Chenning says that the average for September is only .10 of an inch, and this rain is without precedent. The rainy season usually begins about October 15. The weather has cleared finely, and weeke of beautiful weather are probable. Total seasonal rainfall to date, .83 of an inch.

Who Will be Marshal—Various Local Notes.

SANTA MONICA, Oct. 1—(Special Correspondence.) The probable successor of Marshal Barretto is the chief topic of discussion, and will doubtless ac continue until the trustees settle the question at their meeting Tuesday evening. The name of Henry Boehme has been added to those mentioned as possible candidates, but it is doubtful if he would take the position. Mr. Lowman declares the use of his name in connection with the appointment to be wholly without authority; that he is not a candidate, and will not be. It is rumored that Constable Dexter can secure the support of three out of five trustees if he finally concludes to entar the race, and would be thereby ejected. It is not by any means certain that there would be any opposition to Mr. Dexter if he desires the appointment. He would be an efficient officer, and his selection would be an early non-factional as that of any of those named.

Mrs. E. E. Barackman threw the remnant of gasoline with which she had been cleaning a dress Monday afternoon into the slop pail near the gasoline slove. A short time thereafter she started the stove to get dinner. Instantly the room was in flames. In attempting to carry the pail out of the room her hand was painfully burned. The fire was extinguished with no further damage than this, except the destruction of a window curtain. Mr. Barackman lives over Roth Bros.'s store, on Third street, and the incident occasioned some wild excitement for a few moments.

TALK ABOUT PUBLIC PARKS IS

Movement to Enlarge the Plat at the Santa Fe Deptt—The Dem-ocrats Disappointed—Briefs and Personals.

SANTA ANA, Oct. 1.—(Special Correspondence.) A few months ago there was considerable talk in this city about public parks, and steps were taken at that time looking toward the building of a park down in the Smith & Birch tract, the property having been very kindly donated to the city, providing the same should be transformed into, and maintained, as a public park for the city. The matter came up before the City Trustees, was referred to a committee, and since that time but little has been heard concerning it. The property referred to is in a good location, close in, and would make a capital place for a "beauty spot" that could be made very attractive in this semi-tropical valley. As yet Santa Ana has but few, if, in reality, any public places of special interest, where strangers visiting the toward. SANTA ANA, Oct. 1 .- (Special Correley. As yet Santa Ana has but few, if, in reality, any public places of special interest, where strangers visiting the town can feel that they can stop and rest and enjoy the scenery and their surroundings while they are out looking over the "burg." Since the proposition came up to locate the park in the Smith & Birch tract, it has been learned that there is a possibility of more ground being obtained near the Santa Fe depot, where there has already been established a very pretty little park, and if this can be done the Chamber of Commerce will, no doubt, take a hand in the improvement, as that representative body was instrumental in getting for the city what it already has at that place in the way of a park. The Santa Fe Railroad Company owns the property referred to, and it is claimed that the railroad company will be liberal with the city in assisting to build up and beautify the locality adjacent to the depot grounds. But even if this improvement should be made, there is room in the West End for a park, and it should be provided for. DEMOCRATS DISAPPOINTED.

It seems that a good many of the Demo-crats in Anahelm and vicinity are not at all pleased that Mr. Budd, who is ex-pected by the "unterrified" to bloom into crais in Anahelm and vicinity are not at all pleased that Mr. Budd, who is expected by the "unterrified" to bloom into the Governorship of the great State of California next November, did not materialize at the old "mother colony" last week as per arrangement. One of the local papers of that city in speaking of the rally, has the following to say in reference to Mr. Budd's failure to be on hand, and things in general: "The contemplated Democratic blowout at this place on Thursday afternoon did not even bud, much less blossom into a great campaign success. The Fullerton Band was at the depot to meet the train on which Mr. Budd was expected to arrive, and while the band boys did not quite blow their brains out, nevertheless they blew hard to drown the noise of the escaping steam from the iron-horse and the strainings (of the band) were very harmonious, but they were all wasted so far as Mr. Budd was concerned, that gentleman having been detained in San Diego by Mr. Cabrillo and other people whose interests were foreign the success of the Democratic rally in Anahelm. However, there was a meeting in Relser's Operahouse, just the same, and William T. Jeter, the Democratic candidate for Lieutenant Governor, addressed the audience, and he made out a very good case considering the damaging widehoe spainst bacleint. A leading Democrat of this vicinity was heard to remark that the speech was 'very thin', but he was most likely, of the Jeffersonian school, and therefore prejudiced. One part of the programme was a success, and that was the banquet at the Commercial Hotel. ""

Struck by a Cable Car.

A. E. Putney, a well-borer of Florence, was the victim of an unfortunate accident about 2 p.m. yesterday. He was standing at First and Broadway, when a cable car coming around the corner approached him without his being aware of it, and struck him in such a way as to cause a compound fracture of the left ankle. Mr. Putney was carried to the Receiving Hospital, where the injured member was dressed by Police Surgeon Bryant and Dr. Cates, He was afterward taken to his home.

THE TELEGRAPH SUIT.

THE POSTAL COMPANY'S SUIT BEFORE JUDGE ROSS.

The Case Argued at Length and Finally Submitted and Taken Under Advisement by

In the United States Circuit Court ye terday the matter of the application of the Postal Telegraph-Cable Company for an or-der directing the receivers of the Atlan-tic and Pacific Railroad Company to allow it to construct its line along the right of way of said corporation from The Needles to Mojave, came up for hearing on its merits before Judge Erskine M. Ross, and occupied his attention almost all day.

its merits before Judge-Erskine M. Ross, and occupied his attention almost all day. When the matter was called yesterday morning H. D. Esterbrook, Esq., on behalf of the Western Union Telegraph Company, presented a demurrer to the petition, which was, however, overruled by court at the close of the argument. An answer was thereupon filed by Mr. Esterbrook and the Postal Telegraph-Cable Company proceeded to offer evidence in support of its theory that it was to the advantage of the Atlantic and Pacific Rallroad to have an additional line of telegraph at its disposal, apart from the compensation, which it would receive for the privilege.

The matter was argued during the afternoon session, W. H. Wilde, Esq., of counsel for the Postal Telegraph-Cable Company contending that the contract between the rallroad and Western Union Telegraph companies was void for various reasons. Mr. Esterbrook, on the other hand, took the ground that the contract was not void, in that it only gave the Western Union Telegraph Company such exclusive rights along the right-of-way of the raliroad as it could legally do, and stated specifically that if the rival corporation could show that it had any legal rights to the facilities sernanded by it, they would not be denied.

E. H. Lamme, Esq., replied upon behalf

Hebrew New Year Services at the Synagogues.

Very impressive New Year ceremonies took place at the synagogue of the Reformed Hebrew congregation yesterday merning at 10 o'clock. An excellent choir, under the direction of Prof. Loeb, rendered some fine music, assisted by a quartette, consisting of Mrs. Orr Haralson, soprano; Mrs. Jennie Kempton, alto; J. A. Osgood, tenor; and C. W. Pendieton, hass Mrs. Kempton and Mrs. Haralson each

Mrs. Kempton and Mrs. Haralson each gave a solo, and Stephen Foxely, the cornetist, also took part. An eloquent sermon was delivered by Rabbi Blum. The closing of the holiday services takes place on October 9 and 10.

At the Masonic Hall on South Spring street, the monteflore (orthodox) congregation, was addressed by Rabbi Edelman, who delivered an eloquent lecture, which was listened to with the closest attention. A special musical programme was given, and, altogether, the services were of a very impressive character.

recommendation of the Fire Commission that the bid of the Fire Extinguisher Manufacturing Company of Chicago to furnish three combination chemical and hose wagons for \$5240, be accepted, will be watched with interest. This kind of wagon is said to be of good construction, but there is a good deal of objection to allowing any bidder to change his bid after the proposals have been opened.

It will be remembered that at the meeting of the Fire Commission last week Walter S. Moore, agent for the company above mentioned, indorsed on the bid a proposal to furnish three wagons for a less price than the bid stated when opened. that the bid of the Fire Extinguisher Man

Coming Bond Elections.

Coming Bond Elections.

The various bond propositions, except that of refunding a portion of the bonds now outstanding against the city, are expected to be brought before the City Council at today's meeting. Only the ordinances of intention, it will be understood, can be passed now and it will be two or three weeks before the final ordinances calling the bond elections for the various purposes can be passed.

The length of time for which it will be necessary for the official publications of the ordinance to run will render it impossible to have the elections on the day following the general election in November as was several months ago intended.

FOR BEAUTY

A Horse Starved to Death. It was reported to Humane Officer Wright yesterday afternoon that a horse had been allowed to stay in a starving

Wright yesterday afternoon that a norse had been allowed to stay in a starving condition for two days or so in a lot at Main (formerly Kuhrts) and Doulliard streets. Mr. Wright went to the place and found the horse as reported.

The sight was a pitful one, the poor animal being scarcely able to move. A builet from a revolver soon put the beast out of its misery. The horse, belonged to a man named William Morales, who lives near by, and it is said it had been kept there since before the rain, which occurred Saturday night. A good deal of indignation has been expressed that the animal should have been allowed to suffer the way it did. If it had only been reported sooner the authorities would have promptly attended to it, and much suffering would, have, been avarted.

This case is stated to be like a good many others, where horses which are unfit for further use are turned out on the streets instead of being killed. The owner in this way avoids paying for having them creamated, and it devolves upon the city to foot the expenses.
